

LINEA UNIKA

UNIKA - LAVA FOAM - PR2

FOAMY PREWASH

FIELDS OF APPLICATION AND ADVANTAGES

UNIKA - LAVA FOAM - PR2 is a special, high concentration, detergent formula for all cars. It is delicate on surfaces and has a pleasant "UNIKA" fragrance. Its active foam rapidly eliminates insects, grease, smog, hydrocarbon residues and, in general, all types of dirt. Ideal used on portable systems with cascading foam and with all foam systems. UNIKA - LAVA FOAM - PR2 has an alkaline pH and its formula is based on fine, latest-generation, cationic surfactants. UNIKA - LAVA FOAM - PR2 has no caustic salts and maintains its excellent safe detergent qualities on all types of paint, in any environmental conditions. It is a "VDA APPROVED" product so can be used on aluminium, plastic and rubber. Easy to rinse and purify.

CHARACTERISTICS

Physical characteristics:	liquid
pH Value (1%) at 20°C:	11
Density at 20°C:	1,11 g/cm ³
Solubility	completely miscible in water

INSTRUCTION FOR USE AND DILUTION

For the prewash with the sprayer (foam/normal) in dispensing systems, use from 1% to 3% based on the type of dirt. For the self-service box with only the foam nozzle, ensure it draws 50g per wash cycle. For the Roll-Over with a cascading foam system, ensure the dispenser pump draws 20g per car. Roll-Over with foamy arc, ensure the dispenser pump draws 10g per car. PROFESSIONAL USE.

BIODEGRADABILITY

The surfactants contained in this formula are confirmed to the biodegradability rules established on the regulation (CE) n°648/2004 related to detergents.

AVAILABLE SIZES

25Kg jerry can
